SUMMARY

I am a Software Developer passionate in problem-solving, user-centric design, and self growth. My 3 years in Hospitality Management allow me to resolve diverse business challenges with small and large teams. I have strengths in making conceptual transfers to learn new languages through Music Education.

EXPERIENCE

Turing School of Software and Design — *Student*

Sept 2019 - Apr 2020

- Turing students invest seven months in becoming job-ready software developers through sprint-style project-centric courses
- Focus on JavaScript fundamentals as well as 12 week focus learning React with 7 weeks dedicated to back-end concepts such as Node with Express

Grand Hyatt — *Operations Assistant Manager*

July 2018 - Sept 2019

- Accomplished YoY productivity increase(~2%) across operational departments by analyzing labor standards
- Filled in as acting manager for short staffed departments of 8-20 employees
- Managed logistics of housekeepers in 514 room property
- Plan and coordinate events for 10-150 attendees

Chick-fil-A — *Director/Corporate Trainer*

July 2016 - July 2018

- Onboarded 50+ team members in low-retention college store location
- Coordinated and implemented training workshops for leadership
- Worked with team of 80-100 to run efficient(chainwide 20%) Drive-Thru operations
